

KlickTab

AI advertising studio

klicktabstudio.com

2026

We make ads and animation with AI.

We bring technology and creativity together into a result we control at every stage.

- **Photorealism, control over every frame and precise product work**
- **Our own tools and a streamlined pipeline**
- **A team of strong AI artists and art directors**
- **We create the concepts and write the scripts**

TV/OLV and brand films

Watch on the website ↗

Brand film for a mattress brand

A family story from a winter road to a morning in the bedroom.

Knu Skool sneakers commercial

A school hallway, an alarm, a run and product close-ups cut to the beat.

Digital 9:16

Studio expertise

Photorealism

01

Shots you can’t tell from live action: light, texture, skin and camera movement.

Product integration

02

Your packaging and logo in any scene, true to brand guidelines.

Lip sync

03

Characters speak your script: lips, expressions and voice in sync.

Creative

04

We come up with the idea and the script, not just the image.

AI and CG in one pipeline

Neural networks work hand in hand with professional graphics, 3D and editing.

Photoshop

Retouching, collages and frame prep

After Effects

Compositing, motion graphics and titles

Premiere Pro

Editing and assembly

Cinema 4D

3D models of products and packaging

Houdini

Simulations: liquids, smoke, particles

So a task has almost no ceiling: a 3D product model in a generated scene, compositing and motion, collages, frame cleanup and complex CG and AI combinations.

Workflow

01 Creative and idea

02 Script and storyboard

03 Character casting

04 Locations and props

Production timelines

We confirm the exact timeline after the brief: it depends on the video length, the number of scenes and approvals.

Pricing

TV/OLV commercial

A 15–30 second video

from $20,000 per project

Creative and script

Idea, script, storyboard

from $6,000 per project

Static

AI photo shoots and key visuals

from $6,000 per project

Digital and branded content

A reel or a series of reels

from $7,000

Terms

01
Brief and estimate
We get on a call, break down the task and send an idea, a timeline and an estimate within 1–2 business days.

02
Contract and payment
We work under a contract: 50% upfront, 50% after the final master is delivered.

03
Approvals
You approve every stage: script, storyboard, key frames and rough cut.

04
Revisions
Two rounds of revisions at each stage are included in the price.

05
Delivery
Masters in the formats you need: 16:9, 9:16, 1:1, with or without music.

06
Rights
We transfer the rights to use the videos in the brand’s advertising.

Our standards

Results without compromise

Photoreal visuals, considered direction and art direction. Our films are technically clean and convincing, with the product and brand integrated precisely.

A strong idea, strong execution

We dig into the brand’s task and own the creative end to end: we find the visual language, sharpen the message and make films that are expressive and effective.

Transparent and predictable

You always know where the project stands, what comes next and where the risks are. Process, deadlines and communication are on us, from brief to final master.

LET’S TALK ABOUT YOUR PROJECT

Tell us about your task, and we’ll suggest an idea, a timeline and a budget.
